

OCTOBER 2016

GOBLINS AND GHOSTS ARE LESS SCARY THAN SLIPS, TRIPS AND FALLS

LMP LABOR MANAGEMENT
PARTNERSHIP

**T' WAS THE MONTH OF OCTOBER AND WE WERE APPALLED
THAT MANY WORK INJURIES COME FROM SLIPS, TRIPS AND FALLS**

Dangling cords, tubing or straps cause ghastly **TRIPS**.
Wet, icy or slippery floors cause scary **SLIPS**.

Take extra care while on a ladder, ledge or **ROOF**.
Lose your balance? It can cause quite a **GOOF**.

Champions, please search your departments and **ASK:**
“What do you think is a dangerous **TASK?**”

Talk with your team about what makes you **UNSAFE**.
Write down your answers, below in the **SPACE**.

Whom does it affect? What's the hazard's **SOURCE?**
And don't forget solutions; we need ideas, of **COURSE**.

Look over your list; from the hazards, choose **ONE**.
Consider a project with your team, and have **FUN!**

Do small tests of change to remove risks from your **DAY**.
Prevent, slips, trips and falls—please don't **DELAY!**

**Don't be afraid to check these helpful links.
We all know that injuries stink!**
